Reclaimed Health

Darlene struggled every day with low back pain, neck pain, headaches and even leg pain. On top of that, Darlene had to take thyroid and blood pressure medication daily.

Fortunately, the Revolution Chiropractic team bumped into Darlene at a community outreach event, and since then her life has never been the same. Since Darlene committed to corrective chiropractic care, she no longer suffers from headaches, low back and neck pain. On top of Darlene being pain free, she has actually noticed her body functioning better which has allowed her to decrease both her thyroid and blood pressure medications. She went from requiring ten calcium pills a day to just TWO!

Darlene has complimented Revolution chiropractic for

"The wonderful people and wonderful service that you provide.

You make and have made me feel great again!"

At Revolution Chiropractic, we know that decreasing the tension on your nervous system increases the quality of your health… just ask Darlene!
